

A 3" passive, mass loaded driver in a very compact, ported, MDF enclosure delivers deep bass in such a small box! This subwoofer comes with vibration dampened brackets that reduce unwanted cabinet vibrations. Connect this via a lead set terminated with an MFJ connector to give your audio systems the depth you need.

- Talc filled polypropylene cone
- NBR rubber roll surround
- Mounting brackets included
- Wire harness with molex connector
- 40hz - 3kHz rated frequency range
- 1.1 kg, (2.3 lb) net weight
- RoHS compliant
