

**ENCLOSED 6.5 INCH (165 MM), SHALLOW CEILING
SPEAKER FOR TRANSIT**
PART #: 90133

A shallow 6.5" round paging speaker made for Amtrak railcar ceiling systems, with an insulated audio input bushing containing two 1/4" male lugs, connected to a 70 volt transformer tapped at one watt. This product assembly is only 2" deep, making it extremely compact and ideal for mounting in Amtrack trains and railcar ceilings. A highly durable cloth cone treatment and rubber gasketing makes this model both waterproof and resistant to harsh cleaning solutions.

- Enclosed voice range paging speaker
- 6.5" (165 mm) steel basket diameter
- 15 watt, 8 ohm, 93 dB SPL
- 0.75" aluminum voice coil
- Acrylic treated cone, ferrite magnet
