

The MP-1103 is an exceptional 4-inch Piezoelectric speaker renowned for its unparalleled performance in challenging environments. It is incredibly lightweight, making it the perfect choice for military use. The phenolic cone and plastic housing provide superior moisture resistance, ideal for high-humidity areas. Its piezoelectric driver is highly durable and can handle high power without the risk of burnout, making it excellent for use in MRI rooms due to its non-magnetic nature.

This speaker is a marvel of MISCO's innovation, engineered to be feather-light and powerful, delivering crystal clear voice and alarm applications without needing a voice coil or magnet.
