4 INCH (100 MM) COAXIAL CEILING SPEAKER ASSEMBLY

PART #: 93142

A wide range ceiling speaker assembly designed for high quality background music at home, in classrooms, stores, restaurants and other commercial settings. The driver is a 4", 8 ohm premium coaxial speaker built in America. It is protected by an 8.2" grille, magnetically attached with a clean and attractive white powder-coat finish.

The assembly rests within a rear enclosure made of sheet metal, and is protected by an ABS plastic baffle, UL90-V0 rated for flame retardance. The system is ported to maximize bass response in a small, compact enclosure. Connect to your audio system with a secure phoenix-style screw-type connector and make installation to the ceiling simple with this assembly's swivel-out mounting tabs as well.

- 4" (100 mm), 8 ohm coaxial ceiling speaker, two-way
- Titanium-plated polypropylene cone, rubber surround
- Ported speaker system
- 20 watts, 88 dB SPL
- 8.2" white magnetic speaker grille
- Phoenix-style connector
- Swivel-out mounting tabs
- Safety wire loop & cable included
