

MISCO. Amplifiers

MODEL #: MA-2102P
2.1 CHANNEL, 55W, PLATE AMPLIFIER
PART #: 93105

An ideal installation into your cabinets to power an internal woofer and satellite speakers! The MISCO 93105 is a versatile 2.1 channel plate amplifier for gaming consoles, kiosks, or dozens of other applications. Plate-mounted volume, bass level controls, and jumper-selectable filters/frequency equalization allow you to dial in your preferred performance settings. The 93105 also contains multiple powering options; use the existing power rails or an external MISCO power supply (sold separately).

Key Features

- Up to 55 Watts total output*
- Cool-running 2.1 channel Class D amplifier
- 12VAC or 12-24VDC rail power supply, or 15VDC external power supply (sold separately)
- Selectable EQ for mid-range/high frequency
- Adjustable volume and woofer level controls
- Color-coded RCA connectors for full range speaker hook-up
- 3.5mm Stereo "mini-jack" audio input
- LED power light

*Power output varies with supply voltage and speaker impedance. See specs table for details.
